

AMENDMENTS TO THE CLAIMS:

The Listing of Claims will replace all prior versions, and listing, of Claims in the subject Patent Application:

LISTING OF CLAIMS:

1. (Currently Amended) An air purification and physiological metabolism promoting health material, ~~the features of which are that the~~ comprising: a finely pulverized, naturally radioactive rare earth element, which emits in a natural state positive ions and is selected from the group consisting of lanthanum, praseodymium, neodymium, promethium, samarium, europium, gadolinium, terbium, dysprosium, holmium, erbium, thulium, ytterbium, lutetium, and scandium; and said finely pulverized, naturally radioactive rare earth element is in an unencapsulated, exposed state and attached adhesively adhered to the a surface of a synthetic or natural base material.

2. (Currently Amended) An air purification and physiological metabolism promoting health material as claimed in Claim 1 in which ~~the~~ said finely pulverized, naturally radioactive rare earth element is disposed onto ~~the~~ said base material ~~through~~ by interlacing said radioactive rare earth element within said synthetic or natural base material, an interlaced, adhesive, or other means.

3. (Currently Amended) An air purification and physiological metabolism promoting health material as claimed in Claim 1 in which ~~the~~ said base material of natural or synthetic construction is fabricated as a sheet or a board.

4. (Currently Amended) An air purification and physiological metabolism promoting health material as claimed in Claim 1 in which the said finely pulverized, naturally radioactive rare earth element ~~mineral~~ is blended for use as single element or combination of two or more elements.
